Submission Requirements

Please include the following in your proposal submission:

- Detailed pricing breakdown by scope item
- Proposed project timeline with key milestones
- Any assumptions or exclusions
- Relevant experience and references for similar projects
- Contact information for project manager/point of contact

Requested Deliverables

- Preliminary cost estimate
- Timeline estimate for construction phases
- Pricing proposal for full construction services

* Any assumptions or exclusions

Pricing Considerations

- Review tenant improvement requirements and building conditions
- Provide conceptual cost estimates for typical build-out scenarios
- Identify potential challenges or special requirements
- Unit cost guidance for common improvement types
- Preliminary construction scheduling
- Assessment of existing building systems and access requirements

* Scope of work above is limited to tenant requirements only; additional work may be required.

Important Note: This preliminary RFP is issued to support ongoing lease negotiations with a prospective tenant. The project may not proceed, and this request does not constitute a commitment to construction services. Please provide conceptual-level pricing suitable for initial tenant discussions.
